PERSONAL PROJECTS

Portfolio [↗](#) |

- I developed a personal portfolio website to showcase my web development skills using HTML, CSS, and JavaScript and Vite for fast development and performance.
- The site features a responsive design, ensuring it looks great on all devices. The project gallery highlights my work with detailed project pages.
- Creating this website improved my understanding of responsive design, debugging, and performance optimization

E-Commerce Web Page [↗](#) |

- I developed a E-Commerce website to showcase my web development skills using HTML, CSS, and JavaScript for fast development and performance.
- Name of this page is **Male fashion**.
- Key Features: - Easy to find a product - Add a section like : Top sale, New Arrivals, Hot Sales - Contact Section to easily connect with Companies.

Currency Converter [↗](#) |

- Built a Currency Converter using HTML, CSS, JavaScript that allows for the quick conversion of any currency into any other currency.
 - The site features a responsive design, ensuring it looks great on all devices. The project gallery highlights my work with detailed project pages.
- Also make some other Projects like - Calculator [↗](#) , Rock Paper Scissors game [↗](#), Amazon Clone [↗](#) etc. to showcase my web development skills.
